Continuation of 10. Other (including any explanation in support of the above items): The appeal brief submitted on 01/08/2007 seems to map the claimed subject matter of each independent claims with the old version of specification. It is noted that Page 8, lines 10-34 of the instant specification has been amended (pls. Referred to the latest version accepted by the Office on Oct. 06, 2003) However, the mapping of the claimed subject matters are not to the latest version, for example, appellant mapped the claimed subject matters of claim 1 to pg. 8, lns. 17-19, these lines were excerpted as following:

"argument for the generalized scalar function is provided to the corresponding conventional column function in the column environment. In other words, the generalized scalar function may call the corresponding conventional column function and provide to the corresponding" which leading to not completed sentences. Thus, it is advised to map every independently claimed subject matter when refers to Page 8, lines 10 at seq. to complete sentence throughout the Brief. Furthermore, a typing error is noted at page 6, line 10, the word "lat" should be changed to "last" .
